*Animal Souls* release new single:  
"Lessons of Love"

Following up on the August 2021 release of the 10-track LP '*Wisdom of Crowds*', *Animal Souls* are back with a fresh new single, '*Lessons of Love*'.

This time around, bassist/songwriter/producer Michael Fisher partnered with Pete Cordalis at Green Room Studios in Abbotsford, BC to re-imagine the track that was written way back in 1989. This production stays fairly true to the original arrangement, which features a flute (who does that these days?) and added a fiddle for some tasty interplay. The song features a few returning players from '*Wisdom of Crowds*' and a few new additions to the *Animal Souls* family, notably Mara Hatklin (vocals), Les Hatklin (flute), Jennie Bice (fiddle) and Lana Roberts (piano).
