

Animal Souls to release single 'Soul Dance Redux'

Release Date: **Friday, May 6, 2022**

After some reflection, Michael Fisher realized that the original version of 'Soul Dance' that appeared as the 3rd track from the 2021 album 'Wisdom of Crowds', didn't quite showcase the emotive vocals of singer Jackie Lee. The song is a very personal one for Michael (he wrote it for his son Riley), but Jackie made this song her own... hopefully the listener can hear that in her voice on this re-mixed version. Also, the song was actually written on bass and in this version, the bass shines a little more!

"Your soul needs to dance and be free..."
